Story: What did you hear from the community?:	Concern for Affordable Housing
Problem: What is the problem you identify?:	This recommendation looks to provide equitable resources, education and opportunities for persons who have and continue to be displaced by gentrification and the rising cost of home ownership and rent in the city.
How does the problem show up in your community? Who is most impacted by the problem?:	The continued concern for affordable rental and ownership housing opportunities within the African American community was directly submitted by community members during 2020-21 budget town hall meetings. During a January 2021 presentation by Neighborhood Housing and Community Development updates were provided on 2018 Affordable Housing Bond spending toward land acquisition, rental and owner housing development assistance and home repairs. We request these efforts continue and look to intentionally increase the number of African Americans who have access to affordable housing opportunities. We also recommend an intentional effort be made to help more African Americans become aware of and use the Affordable Housing Search Tool.
